

RSK 3131133

Air admittance valve 1/2" is used for secondary air admittance, for example in drainage pipes. The air admittance valve 50/40 is installed with the intention of increasing the capacity and/or reducing the dimension.

Specifications

RSK Number	3131133
Function	For waste-pipe and main drain
Item Color	White
Material	ABS
Outlet Dimension	G15
Pressure Flow Temp	0,9 l/s
Version	Ext. thread
