

## RSK 7097021

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for tiled floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

## RSK 7097022

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for tiled floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

RSK 7097023

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for tiled floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

RSK 7103047

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for tiled floors as a

surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

RSK 7103051

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for tiled floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

RSK 7103048

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for tiled floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

RSK 7103049

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors.The channel has a central outlet and is intended for tiled floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

RSK 7103050

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for tiled floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

RSK 7103052

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for tiled floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

RSK 7103053

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors. The channel has a central outlet and is intended for tiled floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

RSK 7103054

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors.The channel has a central outlet and is intended for tiled floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

## RSK 7103055

Purus channel 150 is a channel made of acid-resistant stainless steel for installation in concrete floors.The channel has a central outlet and is intended for tiled floors as a surface layer. Supplement with gully base in plastic or acid-resistant stainless steel and mesh grate for higher load classes or grating for K3 (300 kg) load.

## Specifications

RSK Number	7097021
Construction Height	68
Floor Construction	Concrete flooring
Floor Covering	Tile floor with glueing flange
Function	End outlet
Item Color	Stainless
Material	Acid-resistant stainless steel 1.4404
Outlet Dimension	Bottom/side in plastic or stainless steel in Ø50, Ø75 or Ø 110 mm
Size	800×150 mm
Surface	Pickled
Version	Do not forget grid/outlet house
RSK Number	7097022

Construction Height	68	
Floor Construction	Concrete flooring	
Floor Covering	Tile floor with glueing flange
