# **PURUS**

#### RSK 7098799

Purus channel volume for tile floors with glue flange is a floor channel made of acidresistant stainless steel for installation in concrete. The floor channel is 400x400x100 mm med ett mittplacerat utlopp och är avsedd för klinkergolv som ytskikt. The floor channel needs to be supplemented with grid depending on the environment and outlet house in acid-resistant stainless steel. Purus channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.

# RSK 7098800

Purus channel volume for tile floors with glue flange is a floor channel made of acidresistant stainless steel for installation in concrete. The floor channel is 600x400x100 mm med ett mittplacerat utlopp och är avsedd för klinkergolv som ytskikt. The floor channel needs to be supplemented with grid depending on the environment and outlet house in acid-resistant stainless steel. Purus channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.

#### RSK 7098801

Purus channel volume for tile floors with glue flange is a floor channel made of acidresistant stainless steel for installation in concrete. The floor channel is 900x600x100 mm with a mid outlet and is intended for tiled flooring. The floor channel needs to be supplemented with grid depending on the environment and outlet house in acidresistant stainless steel. Purus channel

volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.

# RSK 7098802

Purus channel volume for tile floors with glue flange is a floor channel made of acidresistant stainless steel for installation in concrete. The floor channel is 800x500x100 mm with a mid outlet and is intended for tiled flooring. The floor channel needs to be supplemented with grid depending on the environment and outlet house in acidresistant stainless steel. Purus channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.

### RSK 7098798

Purus channel volume for tile floors with glue flange is a floor channel made of acidresistant stainless steel for installation in concrete. The floor channel is 500x300x50 mm with a mid outlet and is intended for tiled flooring. The floor channel needs to be supplemented with grid depending on the environment and outlet house in acidresistant stainless steel. Purus channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.

#### RSK 7098803

Purus channel volume for tile floors with glue flange is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is 300x300x200 mm with a mid outlet and is intended for tiled flooring. The floor channel needs to be

supplemented with grid depending on the environment and outlet house in acid-resistant stainless steel. Purus channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.

# RSK 7098804

Purus channel volume for tile floors with glue flange is a floor channel made of acidresistant stainless steel for installation in concrete. The floor channel is 500x300x200 mm with a mid outlet and is intended for tiled flooring. The floor channel needs to be supplemented with grid depending on the environment and outlet house in acidresistant stainless steel. Purus channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.

#### RSK 7098805

Purus channel volume for tile floors with glue flange is a floor channel made of acidresistant stainless steel for installation in concrete. The floor channel is 800x500x200 mm with a mid outlet and is intended for tiled flooring. The floor channel needs to be supplemented with grid depending on the environment and outlet house in acidresistant stainless steel. Purus channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.

# RSK 7098806

Purus channel volume for tile floors with glue flange is a floor channel made of acidresistant stainless steel for installation in

concrete. The floor channel is 1000x300x50 mm with a mid outlet and is intended for tiled flooring. The floor channel needs to be supplemented with grid depending on the environment and outlet house in acidresistant stainless steel. Purus channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.

#### RSK 7098807

Purus channel volume for tile floors with glue flange is a floor channel made of acidresistant stainless steel for installation in concrete. The floor channel is 1200x600x100 mm with a mid outlet and is intended for tiled flooring. The floor channel needs to be supplemented with grid depending on the environment and outlet house in acid-resistant stainless steel. Purus channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.

## RSK 7103076

Purus channel volume for tile floors with glue flange is a floor channel made of acidresistant stainless steel for installation in concrete. The floor channel is 900x600x200 mm with a mid outlet and is intended for tiled flooring. The floor channel needs to be supplemented with grid depending on the environment and outlet house in acidresistant stainless steel. Purus channel volume is adapted for environments with requirements for hygiene, has a large volume and high flow capacity.
