

## RSK 7110543

The Purus Line Premium 600 is a super low-level linear floor drain with a height of just 59mm and a horizontal 50 mm outlet. It is designed for installation in concrete joists. The Purus Line Premium comes complete with a removable NOOD water trap, strainer, stainless steel clamping ring, installation kit, stainless steel frame and the Premium frame which tiles are fixed on to. The NOOD water trap is a mechanical trap which closes when there is no water present, thus preventing any foul air from escaping through the drain. This linear floor drain can be installed against the wall or elsewhere in the room. For wooden joists with poured concrete, you should use the side or gable outlet versions instead.

## RSK 7110549

The Purus Line Premium 700 is a super low-level linear floor drain with a height of just 59mm and a horizontal 50 mm outlet. It is designed for installation in concrete joists. The Purus Line Premium comes complete with a removable NOOD water trap, strainer, stainless steel clamping ring, installation kit, stainless steel frame and the Premium frame which tiles are fixed on to. The NOOD water trap is a mechanical trap which closes when there is no water present, thus preventing any foul air from escaping through the drain. This linear floor drain can be installed against the wall or elsewhere in the room. For wooden joists with poured concrete, you should use the side or gable outlet versions instead.

## RSK 7110561

The Purus Line Premium 900 is a super low-level linear floor drain with a height of just 59mm and a horizontal 50 mm outlet. It is designed for installation in concrete joists. The Purus Line Premium comes complete with a removable NOOD water trap, strainer, stainless steel clamping ring, installation kit, stainless steel frame and the Premium frame which tiles are fixed on to. The NOOD water trap is a mechanical trap which closes when there is no water present, thus preventing any foul air from escaping through the drain.
